

**Biker Fest International presents: ITALIAN BIKE WEEK!
15th-18th September
LIGNANO SABBIAORO (Udine)**

For the end of summer season, we welcome the **Italian Bike Week**, scheduled from 15th to 18th of September.

After the record of **May 2022** with over **100,000** visitors and the success of the two September editions of **2020** and **2021**, there are all the basics to create a brand new event on the International scene.

The **Luna Park Area** of Lignano Sabbiadoro will remain the beating heart of the event and its shape will be almost unchanged compared to May, but the **Demo Ride Area** (with over 3,800 test rides during the 36th Biker Fest in May), will change radically moving on the grassy ground, with over 7 kilometers of tracks: to test all 2Wheels **Off Road** and **Adventure Touring**.

It will be the right opportunity to try the new models of the most important **Official Motorcycle Brands**, that were presented in the months of August/ September: it will be a real preview for fans and beginners.

For this important initiative will be created Off Road tracks suitable for various types of tests, to try with the new models. There will be of course a track dedicated to professional riders who can use their bikes in an Off Road every day.

Live and love with us the opportunity to enjoy the Bikers Life, all this is **Italian Bike Week 2022!**
