

Italian Bike Week has won!

The Brand New Event has been a significant success. “The First Time” has grouped two worlds united by the motorcycle, as the custom and the off-road, that have met and mixed so naturally: it seemed to be on the Florida (USA) coasts for Biketoberfest that closes the summer season started with Daytona Bike Week.

The Area of **Luna Park Strabilia** remained the beating heart of the event and presented the **Custom Bike Show**, with over 50 bikes also from Germany, Switzerland, Austria and Slovenia, which were then evaluated by the judges who selected and awarded the most beautiful special of the **Italian Motorcycle Championship** Award in Lignano Sabbiadoro (UD).

In order to its origins, the Italian Bike Week presented a reunion and a parade for of U.S.A. 4wheels lovers called **U.S. Car On The Beach**, organized by **Old School Garage** and **Cruisin' Mag**.

The cars, that have passed through the streets of the city, have reached almost **300** and the award ceremony on Sunday has decreed **30 winners** among Chevrolet, Cadillac, Camaro, Ford Mustang and F100 and other brands in addition to all the clubs from all over Italy and from European countries.

On Saturday, there were the presence of the beautiful **Pin Ups**, which participated to the "**Fifties Bike Wash**". The beautiful girls competed to the sound of music, sponges and soap washing a very lucky motorbike under the Main Stage.

There was the great presence, and unique in the European area, of 10 two-wheeled V8 that reached the event for the **5th Boss Hoss Italian Reunion** at the stand of **American Dreams**, official Italian importer of the biggest bikes in the world.

Also for the Italian Bike Week, in the Area of the **Globe Trotters**, ten traveler bikers reunited to show their fantastic trips all around the world.

One of the most crowded moments was the **Saturday Light Parade**, which for this edition, has staged thousands of motorcyclists, with the drawstring of lights in the streets of the city.

During the event were set up two stands branded "Motorismo", where **Marco Lucchinelli**, World Champion of 500cc Class, e **Fausto Ricci**, the guest star of the event, organized mini courses dedicated to those who wanted to get on bike for the first time and experience the two wheels.

The **Demo Ride Area**, important area like for the Biker Fest in May, has been moved to earth for this edition and the two-wheeled proposals have presented the new ones of Off-Road, a sector growing in 2022.

The Motorcycle Brands have set up routes for testing the bikes also on the street. Brands such as **Beta Motorcycles, BMW Motorrad, Husqvarna, Kawasaki, KTM, Suzuki, TM Racing, Triumph Motorcycle** and **Yamaha**, from Friday have tested to the most curious but also to lovers of the sector, several bikes until Sunday.

In the **Off-Road Area** there were a lot of new activities as the "Ascent of Tagliamento River", organized and promoted by **MV Adventure**, about **70 km** through the natural beauty of the area, and the **Enduro Fest**, by the MotoClub Sabbiadoro, that proposed **6 km** tracks for the endure lovers.

Surely one of the innovative activities and in line with the adrenaline of Off-Road was the **Deep Tread Night Ride**, which welcomed 30 endure riders, for 315 km through dirt and country roads of the region until Slovenia and then back to Lignano Sabbiadoro.

The rock sound has followed this new edition thanks to three days performance with **15 bands** and on Sunday with the new **Italian Bike Music Contest** that has seen on stage **8 emerging bands** from the region.

Among perfumes and colors, the food has thrilled the Italian and foreign visitors.

To live this journey (for more than thirty years), the next date is the **37th Biker Fest International** scheduled **from the 18th to 21st of May in 2023**, same place and same beach!

CUSTOM BIKE SHOW ITALIAN BIKE WEEK
